

## EXECUTIVE SUMMARY

# The connected operating system for youth sports.

Brandlete runs the whole organization and builds every athlete's development record in one place. **One platform for athlete development, operations, communication and intelligence**, free to the organization and owned by the athlete. A mature product in real use today, entering its distribution phase.

**\$60B+**

global youth sports market, 2026 (U.S. economy ~\$40B)

**27M+**

U.S. youth in organized sports

**\$1.5B+**

youth sports software market

**3,000+**

athletes in first anchor org (Lightning)

## ONE PLATFORM INCLUDES

Coach &amp; team hub

Athlete Development Record

Max, the AI action layer

Scheduling &amp; operations

Player Card &amp; public profile

Youth-safety controls

## THE PROBLEM

Youth sports runs on disconnected tools, and the athlete's development history **starts over every season**. Nothing follows the athlete from team to team or year to year.

## WHY IT WINS

Persistent athlete identity and a development record that **compounds and travels** with the athlete across teams, clubs and seasons. Depth and connection, not another point tool bolted onto the stack.

## HOW WE MAKE MONEY

Free to organizations. **\$49 / athlete / year** is the initial recurring engine, with expansion revenue ahead: sponsorship, fundraising, camps, facilities, marketplaces and premium AI.

## THE PRODUCT, TODAY

A mature platform already in use, not a prototype. Coach hub, scheduling, communication, the Athlete Development Record, and **Max**, an AI layer that acts on Brandlete's connected context.

## TRACTION

Lightning Basketball, a **3,000+ athlete, 250+ team, multi-state** organization, is rolling onto Brandlete with first teams live. Active conversations across clubs, schools, leagues, academies and events.

## DISTRIBUTION, THE NEXT UNLOCK

A repeatable, top-down motion: the **Playmaker Network** of trusted insiders, anchor-and-expand off flagships like Lightning, founder-led sales, and strategic networks that open many doors at once.

**\$1.5M**

**Seed SAFE.** The product is already built. We are raising to move faster, not to prove we can build it.

Scale sales & distribution · Expand product & AI · Key hires

## TEAM

Judd Simon · Founder &amp; CEO

John Osberg · VP, Partnerships

Brian Lehman · VP, Business Development

Steve Coulton · Head of Growth

David Taylor · CTO

Angus Giles · Head of Engineering
